NINE RIDE ONE BICYCLE

Wonderful Wheel That a Cal fornian Is Constructing.

A MILE AT (REAT SPEED

New Nonaplet Will Be Made of Aluminum and Will Be Geared to Two Hundred and Twenty-five-It Will Be a World Beater-Physical Endurance of the Riders.

When the tandem was built a number of years ago, it was looked upon as a re-markable development of the bicycle, and the two riders skimming along over the road attracted almost as much attention as a small circus parade.

The triplet, with seats for three riders, but only two wheels, next made its appearance and astonished the cycling world its speed. Both the tandem and the triplet were used for pacing riders in contests against time, and some expert finally suggested that a quadruplet or a two-wheeled machine for four sturdy cyclists would set a faster pace than had ever been seen on the track.

Many persons did not believe the frame could be made strong enough to support four heavy wheelmen, but the machine was constructed and proved a great success as a pace-making device. It made its mile on a straightaway course in 1 minute 35 N. J., August 28, 1890.

It was now quite generally believed that he "quad" was the longest bicycle that ould be built and operated successfully, but P. J. Berlo very recently demonstrated that the opinion was not well founded. He constructed a quintuplet, which car-ried five riders, but had only the usual num-

It proved a valuable addition to th

centaking apparatus, and encouraged by success a California inventor is building what he calls a nonaplet, which he ex pects will carry nine men and display precedented speed on a straightaway con The inventor's name is Albert Thomp The inventor's name is Albert Thompson, and he is a resident of San Francisco. This machine will be a world beater, says The Wheel. Nothing can pace it, and even the lightning must hustle or be distanced. and the phenomenon will have two 30 inch wheels and will weigh 180 pounds, and its gear will be 225. Think of the speed a gear of 225 will make, when a 90 gear rolls a mile in 1 minute 35 seconds, or about 45 1-2 feet per second.

ith nine crackerjacks whirling the big rear sprocket almost four times the diameter of that on the ordinary wheel? They won't do anything to that I minute 35 seconds

After the Delmas-Smith-Jones-Davis After the Deimas-Smith-Jones-Davis "quad" feam made their best time, half a second better than the fast horse, they could not stop their machines. At the awful speed they dared not attempt to back pedal for fear of being hurled from the seat and dashed to pieces, and the machine ran ieveral miles along the straight, level road. FEAR OF AN ACCIDENT.

When the riders alighted from their perilous positions their faces were blanched the hoe of death, so great had been the nervous strain and the fear of an accident— always imminent—which would pitch them

All four of the strong, skillful wheelmen were so prostrated that they did not attempt to ride for weeks. At least this is what truthful California reporters

The mind grows weary trying to conceive of the physical endurance of the nine who will pump that 225 gear machine ahead, and dizzy "getting on to" the conception of the riffe shell velocity of that racer of aluminum. Steel will of that racer of alaminum. Steel will not be in it with this nine of a kind. Several experts estimate the "nonapiet" to be capable of a nile in 20 seconds—or in 10 seconds providing the riders can get out a reasonable life insurance of accident policy, or if respiration is possible during such speed through the air. Possibly the cyclist yet to come will be geared to his wheel in every particular and the arrowwheel in every particular, and the atme pheric as well as the other conditions over-

Not a few bicycle manufacturers are doubting Thomases when Inventor Thompson's nonaplet is mentioned. They do not believe the machine can possibly be a success. California, however, is essentially a land of great things. Trees, potatoes, flowers—everything grows greater, bigger and better in the "glorious climate of Californy," Thus it seems but natural that cycling should expand into something stapendous in such a country. Expectapendous in such a country. Expecta-tions are to be verified if the world is to believe the San Francisco Call, and why should it not do so?

At the Club. Maston-So you are going to try to pay our debts this winter, ch?

Billson - Yes. S Maston - You'llhave yourhands full to do it. Billson - I hope so. The other fellow had the full hands all summer, or I would have paid them long ago. New York World.

LOCAL ATHLETIC GOSSIP

"There is no accounting Columbian College Forms an All-Round Athletic Association.

> There Will Be Two Great Games of Football Played in Washington on Thanksgiving Day.

What will probably be the most importan movement in athletic affairs that has been inaugurated in this city in a number of years was put on foot by the students of Columbian University on Tuesday evening. The fact has been noted in these columns

tion. The authorities not only told the students to go ahead, but they have subscribed liberally toward the expense of getting the team in working shape, and now the students have taken another athletic

At the meeting on Tuesday about forty students who are athletically inclined were present, and a regular athletic department, such as is maintained by Yale, Harvard and other great educational institutions was organized. Mr. Robert S. Barrett, an energetic and thoroughly capable young man was elected manager, and Mr. G. L. Johnson, also an enthusiast over athletic matters, was chosen secretary and treasurer. It is the purpose to apply for membership perb—its lightness and the nice
adjustment of the bearings acthe bearings acness and the nice
adjustment of the bearings acthe bearings acness are purpose to apply for membership in the Intercollegiate Athletic Association and to have Columbian University represented in the regular intercollegiate meet next May, and Mr. Barrett has laid out on a firm business basis. With this view he has arranged three classes of membership

ship.
The first will be known as sustaining mem The first will be known as sustaining mem-ship. The yearly fee for such will be \$10, and will take in persons either in or out of the university who are willing to aid the association. The second will be known as the alumni membership, and will take in members of the alumni and others who are willing to help the association to the extent of \$2.50 per year, and the third will be the active membership, which will include all students of the university who will pay a yearly fee of \$1.00. From these sources Manager Barrett figures that \$1.000 a year ought to be easily raised. The actual ex-penses per year will be about \$800.

A contract was made yesterday for the old Capitol Park basels all grounds, and they will be fitted up at once. It is the purpose to put up a gymnasium and to build a track, and otherwise fit the place up in good shape for all sorts of athletic work.

The Tigers are a new football aggregation that will meet the Junior Shamrocks at Metropolis View on Sunday. The team is made up principally of the members of the Tiger baseball club. The players average about 117 pounds. The line-up will be Kirk, right end; Fisher, left end; Cooper, right tackle; Parsons, left guard; Beckett, center; Loughran, right guard; J. Loughran, left tackle; Ardell, right half-back; Froggleth half-back; Murphy, quarter-back, and left half-back; Murphy, quarter-back, and

The Columbia Athletic Club men do no The Columbia Athletic Club men do not feel flattered over the charge made by the Gallandet people that they are a lot of singers. In fact, the Columbia folks are a good deal inffeed, and are not slow to say that the Gallandets are simply afraid to play them, and are taking this neans to avoid a defeat.

The athletic club team are working hard to get into good share for the games they

to get into good shape for the games they have on hand. They are putting in every spare hour at practice. Only five men have as yet been definitely settled upon. They are Underwood, who will play center; McGown, right tackle: Hocker, left tackle; Waish, left end, and Clark, fullback.

There are numerous candidates for the

Walsh, left end, and Clark, fullback.

There are numerons candidates for the other positions. Dickinson and McConville are aspirants for right guard: Saunders, Taimadge and Bussy for left guard: Setton and Wisner for right end; Lewis and Parsons for right half back; Johnson, Koreand Davidson for left half back, and Parsons and Johnson for quarter back.

On the selections finally made will, of course, depend the weight of the team, but

course, depend the weight of the team, but it will not, from present indications, average far short of 176 pounds.

Mr. Wells said yesterday that a proposion a straightaway course in 1 minute 35 been sent the Lengt train and there is every prospect for a great game here on Thanks-second than Salvator's world famous mile giving Day. A game was also arranged on the straight track at Monmouth Park. yesterday with the Orange Atmetic Associa-tion team, which will take place here on the 13th. The game with the Baltimore Athletic Club men on the 16th will no doubt be a fine one. On Thursday the Baltimore team beat the Warren Athletic Club eleven handily. The latter is the champion football organization of Delaware.

> There is every prospect that there will be two Thanksgiving Day games here, both good ones. The Columbian Varsity men have determined to bring an out-of-town college team here on that day. It is likely that either the Johns Hopkins or Universit.

that either the Johns Hopkins or University of Virginia teams will come.

In the meantime the local 'varsity boys will try to get on a game with the Columbia Athletic Club men. They no doubt think they have a good chance to defeat the heavy-weights, and, if they should, they would be quite an attractionn to the local talent in the holiday event.

The university now has a squad of thirty

The university now has a squad of thirty ealthy candidates in practice. They have abandoned the little space at the college and are doing their work on the old Capi tol basebail grounds. Reeves Lewis, who has the men in hand, thinks there is plenty of good material for a splendid team among

them.

The team has two games already scheduled. One is with Washington and Lee, and will take place at Lexington, Va., on the 23d. The other is with the Virginia Military Institute, and will take place on the 25th at the same place. Negotiations are

also pending for a game with the naval cadets of Annapolis.

cadets of Amapolis.

The members of the Biakes Baseball Club who have been doing football practice for the past three weeks have determined to cast their lot with the Canterbury football team, and a combination of the two teams has been effected. Yesterday E. R. Williams, who had the Biakes in hand, received a letter from C. E. McGowan, manager of the Orients, asking for a game, and Mr. Williams laid the challenge before the Canterburys, who promptly accepted it, and Mr. Williams will call on Mr. McGowan to-day and arrange a date for the contest. The Canterburys, as they are now made up, are a much stronger combination than they originally were. The men are in the hands of C. E. Watson, a capable trainer, who will fill the position of right half back. The line-up of the team as it is now constituted will be:

Costinett, center; Downey, right guard; Corrigan, right tackle: Williams, right cod; Langley, left end; Hopper, left tackle; Lannon, quarter back; Watson, left half back; Peterson, right half back; Boyd, full back, and Compton, who was severely hurt some time ago, but who has recovered safficiently to play again, will be at left end.

In a communication to The Times, Manager Williams says: "The Canterbury football team is desirous of arranging games with any of the teams in the District and bars nobody." The only game the team has definitely arranged is with the Shamriocks, whom they are to meet on the 14th of this month.

The challenge of the Naval Cadets to row the Potomac Boat Club crew an eight-cated shell race at Annapolis next May was accepted by the local men at a meeting held last night.

The Potomac football team will here-after be coached by Captain Jack Jones Stewart, a good baseball player of the Martinsburg team of last season.

In the practice game yesterday after-noon the Columbia Athletic Club eleven beat the Central High School boys 34 to 0.

It is said that Sears has finally deter-mined to quit the Potomacs and join the Columbia Athletic Club eleven. the Young Men's Christian Association team was beaten by the Washington Ath-letic Club team 14 to 0. This was the

The Columbian College boys defeated the Episcopal High School team, of Alex-andria, quite handily yesterday afternoon. The score was 20 to 0.

GENERAL SPORTING NOTES.

A large number of race horses have already arrived and are stabled at the grounds of the Crescent City Jockey Club, New Orleans, for the winter meeting, which is to open on November 23, and continue for 108 days. The Merchants' handicap, the first stake race of the meeting, will be run on Thanksgiving Day.

Fred List, spoken of in these columns the other day as getting himself in shape to try for the Washington and Baltimore road record, broke the world's five-mile paced road record at Baltimore yesterday. He covered the distance in eleven minutes and seventeen seconds.

Harry Clark, of Denver, has broken all world's records unpaced for both class A and B from three to five miles. His time was as follows: Three miles, 7:18 1-5; four miles, 9:56 1-5; five miles, 12:34 2-5.

At Fountain Ferry Park, Louisville, Otto Ziegler yesterday took away Johnson's only remaining track record of note—the paced standing mile. Time, 1:50-2-5; record, 1:52-1-5. Willie Decardy beat Titus' record of 20:54-5 for the standing paced ten miles. Time, 20:45. Two quads paced Ziegler and three, Decardy.

After Badge had been defeated at Louis-After Badge had been defeated at Louis-ville, one of the Hubinger brothers, who had lost about \$4,000 on the race, said that he was done with spiritualists, says the American Sportsman. His remarks caused parties who were present to look around a little, and they learned that the owner of Badge was a lady living in Minnesota. She is a spiritualist, and before each race it was customary for one of the party to go into a trance and find out what was going to happen. It appears that at two or three points on the line the medium managed to points on the line the medium managed to drop into the future far enough to call the turn so far as the number of heats were concerned, and even the time in each heat. At Louisville, however, Ella T. managed to get in the way, or probably a cog wheel was loose in the spiritualist's machine as Bades went down and let of machine, as Badge went down, and a lot of money was singed.

PHIL KING PROTESTED.

Orange Says He Is a Paid Player and

A dispatch from New York says that complications have arisen by which there may be no football game between the Orange and Crescent athletes this year. It is under and Crescent attactes this year. It is under-stood that Orange has protested against the playing of Phil King by the Cres-cents, and as the latter are obdurate, there may be no goine at all.

It is said that Orange has brought a

charge of professionalism against King on the ground that he received money for coaching the Princeton team last year. This charge is ridiculed by King, and the Crescent management may ask some pertinent ques-tions about the eligibility of certain Orange

It is said that Orange makes the charge on the evidence supplied by E. C. Mam, ex-treasurer of the Princeton Football Associ-ation. Munn, however, is reported as being averse to making an affidavit against King. The fact that King played baseball for Orange last spring is also ascribed as reason for the protest. Those who claim to be on the inside say King was well repaid for his services as second basenan, and that when he joined the Crescents the Orange people made up their minds to be revenged.

Certain men interested in the walfage of Certain men interested in the welfare of

the Crescents say that an investigation will he made into the amateur standing of Uffen heimer. Mintzer, Comins, and other mem hers of the Orange team.

"POP" ANSON AS AN ACTOR. Bugaboo of the Umpirés Rehearsing "A Rumaway Colt" in New York.

(From New York Telegram.) The baseball public finds it difficult to fully grasp the idea of "Old Pop". Auson as an actor! The bugaboo of the entire unpire staff taking the center of the stage, rescuing the heroine and cuffing the vibor.

The man who has never admitted the

The man who has never admitted the loss of the pennant till some other team landed first, bowing and scraping behind the footlights and holding the base-ball mirror up to nature.

The amouncement will create a general titter and the "cranks" will prepare to lay back in their orchestra chairs and roar at the grand old man of the damond.

Of course, no one has ever seen "Anse" play nine full innings of this new game, but from the little limbering up work he has done over on Hoyi's diamond the indications are that the bleachers and the grand stand will all "root" for the Chicago captain before the series is completed. And if he doesn't win the dramatic pennant it won't be because he doesn't play till the last man is out.

It is in order to refer to the term "Old Pop" Anson. This blonde-haired giant is a young mansofar as years are concerned, but he is a patriarch in baseball chronology.

When a man has played baseball ten

but he is a patriarch in baseball chronology.

When a man has played baseball ten
years he is regarded as a grand-parent
of the game, and as Anson has ornamented
the green diamond for over twenty years
he is regarded as a baseball Methuselah.

"Anse" has been rehearsing for about a
week in his play, "The Runa way Colt,"
and, while he makes an occasional fumble
and is sometimes caucht nanoing, yet he
Peter Maher and Steve O'Donnell have and is sometimes caught napping, yet he isually accepts all chances and plays to win to order to give the scene a baseball fla-tor, "Frank" McKee and Manager Good-win sit down in front at repearsals and ex-

win st down in front at renearsals and ex-bort "Anse" to "hit her out," "get into the game," "two out, play for the bat-ter," "sacrifice," and indulge in other en-couraging remarks. Stage Director Julian Mitchell also em-ploys a baseball vocabulary when coach-ing the captain. When the big fellow came in absaul of his ene Mitchell remarked: in ahead of his cue Mitchell remarked: "You're batting out of tarn, 'Anse,' " The old man went to the heach muttering that he believed he could have made a hit and tied the score then and there. Again when Anson got mixed in his lines

"Out at first, cap." "Is that your decision?" asked the tall Chicagoan, with the same giare that he used with such effect on the deadly um-pires. "I don't think I was touched. Anyway, these rules need revising."

Then McKee yelled, "Play ball!" and

There is one point in the game where "Anse" gets plainly rattled, and that is where the winsome heroine, Miss Alice Evans bugs him enthusiastically in return for saving her brother. "Anse" turned all sorts of colors and acted like a man who an sores of coors and acted like a man winning run. But he is expected to regard that as an easy curve before the season grows old. The son of a ciergyman has the choice of an \$800 position in a bank or a \$2,000 place as a pitcher for Anson. The boy was a college pitcher, and attracted Anson's attention. The boy's father wanted him to go into the bank, but the youngster ran away and joined Anson's team. When "Cap" found that the boy was a runaway be grout to the boy's parants, and everywrote to the boy's parents, and every

thing was lovely.

The villain, who, of cohize wanted to marry the heroine, couldn't get her, and sought to bring disgrace on her family by inducing her brother to wager a large sun on a ball game. The situation was perilous and "Anse" made a homer over the fence

and won the game.
"Anse" may not be a dramatic Kohinoor, but the cranks will remember that, while he has railed at umpires and fought like he has raised at unipres and fought like a wildcat for every point of the game, yet he has always played fair and above board. Whee asked about the baseball fight for 1896, he answered: "How can I lose the pennant? I finished fourth last season, and will be stronger next. I will have new pitchers and be in good shape generally. "I expect to see the twelve-club League continue. There are secured to the total continue. continue. There are some objections to it, but, on the whole, it is satisfactory. "In 1894 I had doubts as to Baltimore winning on its merits, but their victory the past season removes all doubt on tha

November. Now the oak log's blazing bright: By the chinney place . You can see, when comes the night Many a rosy face.

From a hundred happy hills Notes of joy arise; On the fields and by the rills Gray the frost-flake lies. Songs of reapers in the fields, Echoing o'er and o'er Where the earth in beauty yields

All her golden store. Joy and peace, and love and light—
Eyes that softly glance,
Ere we kiss the girls good-night,
One more merry dance!

Big Guns and Other Evils Have Driven Them Away.

Washingtonians Must Go a Long Way from Home These Days to Enjoy Good Sport,

"At one time this was a good ducking country, but it's no good now," said a well-known sporting goods dealer yester-day. "There was a time, not so many years ago, either, when ducks of all kinds were bagged in large numbers within a few miles of Washington, but now, if sport of this kind is to be enjoyed, a long trip

"There are numerous causes for the scarcity of ducks in this neighborhood at this time. One thing is increased activity on the river. Another is the steam launce and the use of big gans. The shooting of these death-lealing implements is against law, but that appears to make little differ

"In years gone there were many goo hooting shores in this vicinity. They extended from Hunter's Creek, just below Alexandria, clear down to the capes. Many Washington people established clubs on the line of the river. They would take up from a quarter of a mile to three miles of territory, and in season would have a gran

"The shooting was of the very best kind,

of their sport.
"As to local shooting, there's none of it now. In former times at this season of now. In former times at this season or the year a great many ducks were killed hereabout. But I have not heard of the killing of two dozen this season. Mayor Sherwood has killed several mailard god teal near Four-Mile Run during the past week

near Four-Mile Run during the past week or two.

"On Friday last William Curzon got three mallard and four teal at Gravel Creek, and Will Murray told me to-day he had killed a small number in the marshes about fifteen miles down the river, and Charley Laird got four mallard near Point of Rocks, but these are all that I have heard of up to this time.

"There is absolutely no shooting of any account in this immediate vicinity any more. When Washington men want to duck now they go from fifty to one hundred and fifty miles away. Havre de Grace attracts many of them. There the shooting in season is always good. The ducks are protected by law. Sportsmen are restricted as to the number they shall kill in a day; the size of the gon that may be used is stipulated; only three days in the week are allowed for shooting, and a shooting tax is levied. These things give the ducks a chance, and as the feeding at Havre de Grace is good they congregate there in large numbers.

NOTES ABOUT BOXERS.

NOTES ABOUT BOXERS.

The Philadelphia Fencing and Sparring Club will be the scene of some novel trials this afternoon, with the object of proving the utility of pneumatic boxing gloves. Several expert amateurs and professionals have been invited to try the new pillows, for which great things are claimed. The result of the experiment is awaited with interest, and should the gloves, as claimed, eliminate all danger cutailed by active pursuit of the sport, they will probably command a big market among the crop of fighters who have hitherto favored "windy" warfare.

Peter Maher and Steve O'Donnell have arrived in New York. It is settled that they will fight before the Empire Club on Monday night, if no obstacles are thrown in their way. Both men are in good condi-tion. If O'Donnell should happen to win he will no doubt be challenged by Fitzsim-mons.

Within the next two weeks a very interesting prize fight will be pulled off in the vicinity of this city, the contestants being Tody Banks, champion featherweight of Washington, and Pete Lovery, of Atlantic City. The men signed articles yesterday, and go into training at once.

DUCKS ARE MIGHTY SCARCE VACANCIES IN THE RANKS

Democratic Losses on Tuesday in the United States Senate.

MANY TERMS WILL EXPIRE

wenty-nine Statesmen Will Leave Public Life-Of This Number Fifteen Are Democrats, Tweive Re-publicans and Two Populists—Opin-ions of Leaders on the Winning Side.

The elections of 1894 and 1895 have been unusually disastrous to the Democrats in their results upon the United States Senate. In the Fifty-third Congress there were forty-five Democrats in the Senate. In the elections of last year they lost seven, namely, two in North Carolina, and one each in Kansas, New Jersey, South Carolina and West Virginia and Delaware, re-ducing their membership in the present

Congress to thirty-nine. Of this loss four were gained to the Republicans, two to the Populists and one re-mains vacant. Yesterday's elections re-sulted in a further loss to the Democrata of four Senators, namely, Kentucky, Mary land, New York and Ohio, all of which wil

be gained to the Republicans.

With the present Congress the term of wenty-nine Senators will expire, of whom and two Populists. The Democrats are Blackburn, of Kenucky; Blanchard, of Louisiana; Call, of Florida; Gibson, of Maryland; Gordon, of Georgia; Hill, of New York; Irby, of South Carolina; Kyle, of South Dakota; Palmer, of Illinois; Pugh,

of South Pakota; Palmer, of Illmois; Pugh, of Alabama; Vest, of Missouri; Vilas, of Wisconsin, and Voorhees, of Indiana. Republican legislatures were chosen Tuesday in four of these States, and in four of the Others it is reasonably certain that of the others it is reasonably certain that
the Republicans will secure the legislatures
next year, thus adding another quartet
to their strength in the Fifty-fifth Congress.
These are Illinois, Kansas, South Dakota
and Wisconsin.
The remaining seven States now represented by Democrats are likely to choose
Democratic successors, with the possible
exception of Indiana.

OUT IN 1867

OUT IN 1897.

The Republicans whose terms expire in 1897 are Allison of Iowa, Cameron of Pennsylvania, Dubois of Idaho, Gallinger of New Hampshire, Hamsbrough of North Dakota, Mitchell of Oregon, Morrill of Vermont, Perkins of California, Platt of Connecticut, Pritchard of North Carolina, Squire of Washington, and Teller of Colo-rado.

All these will be succeeded by Republi-All these will be saccessed by Republicans, with the probable exception of Pritchard of North Carolina. Jones of Nevada and Peffer of Kansas, Populists, will allo go out in 1897. The former is likely to succeed himself, or be succeeded by a Populist, but Peffer will give place to a Republican.

From this statement it will be seen that

From this statement it will be seen that the loss to the Democrats in the elections which have already taken and which will take place next year, involving successors to the twenty-nine Senators whose terms expire with the present Congress, will be expire win the present Congress, win be-seven and their gain one, making a net-loss of six, which will place their strength at thirty-three. The Populists lose one, and these losses will be gained by the Re-publicans, making their strength in the Fifty-fifth Congress fifty-one, including the two Senators to be chosen from Utah and including, Belaware's Avency. The full including Delaware's vacancy. The full strength of the Senate will then be ninety, and forty-six will constitute a quorum. and forty-six will constitute a quorum. It is a noteworthy fact that this preponderance of Republicans will come from the loss of what has been hitherto regarded as invincible territory, namely, North and South Carolina, New Jersey, and West Virginia in the present Congress and Ken-tucky and Maryland in the coming Congress.

LOSSES KEENLY FELT. Omitting Ohio and New York from the Democratic casualties, the loss of Senators from the States first named will swell the Republican strength from 45, which is one less than a majority, to 51, or five in excess

of a majority.

The seriousness of these losses to the Democrats is keenly felt by their leaders, as there is no likelihood of recovery for periods of four and six years respectively. In the meantime they might capture seats now heid by Republicans and Populists, but the prospect for that is not encouraging, and the chances for the Democrats securing a majority in the State within the complete the property of the state within the complete the property of the periods and managing campaigns in the year colors and managing campaigns in the year

ng ten years are very slim. Election news from Utah was eagerly awaited. The conflicting reports, both prior to the election and since, regarding the probabilities and the outcome caused much speculation, which was heightened by early advices that the constitution had probably been defeated, or that, if carried by a small majority, the new State would be Democratic. These advices have been discredited by telegrams amounting that Republicans have carried the State icket a majority of the legislature, and that the constitution has been adopted

by a large majority. The Congressman is The Congressman is probably Republican, although the fact that a prominent Hishop of the Mormon Church ran against him has doubtless resulted in a material cutting lown of his majority in districts where the church vote is in large preponderance. Under the enabling act the Utah commis

cutaway to be bought than that Regent we offer at \$13.50 for the full suit. Just a little tip on the side about Un-derwear. You'll get \$1.50 worth in every garment of that Natural Wood and Gray All-wood Underwear we real for \$1.25.

sion is required to promptly certify to I /es-dent Cleveland the fact that the constitution has been adopted, and that the various pro-visos, including one forever prohibiting polygamy, have been incorporated in the body of the instrument and ratified by the

After Mr. Cleveland receives this certifi-cation from the Utah commission, which has charge of all the elections in the Terri-tory, he is required by the act to issue his proclamation declaring Utah admitted to the sisterhood of States.

The Congressman elected will then take his seat in the Fifty-fourth congress. The legislature, which meets in January, and which will be Republican, will elect two United States Senators, both of whom will, of course, he of that many.

of course, be of that party. It is under-stood that one of these will be a member of the Mormonchurch and the othera Gentile. WHAT REPUBLICANS SAY. Some of the opinions of leading Republian politicians are given. Gen. Louis T.

can politicians are given. Gen. Louis T. Michener, of this city, said: "The failure of Mr. Cleveland's administration to deal wisely and patriotically with foreign affairs kept thousands of Democratis from the polis and drove thousands into the Republican party. I have not found a Democration party. I have not found a Democration would commend the foreign policy of the present administration. This widespread dissatisfaction did the Democratic party infinite harm in the campaign just ended.

"Then there was the belief that the Democratic party is not capable of prop-

Democratic party is not capable of properly administering our domestic affairs. In every respect Mr. Cleveland's administration has been found defiant and unstrength of the Americanor patriotic

feeling has never been fully realized by the leaders of the Democratic party, and from the beginning until the present time they the beginning until the present time they have not thought it worth while to take account of that sentiment. It is apparent that tens of thousands of former Democrats have come into our party to stay.

"The victories which have been won by our party since they."

ciples and managing campaigns in the year 1896." Gov. William Pitt Kellogg, who lives in Washington, said: "The-great victory gained by the Republicans in the strong-holds of Democracy is a sure indication of Republican success in the national elec-

tion next year. The results are significant to my mind in that they point out the policy of the party next year." OPINIONS OF OTHERS Gen. W. W. Dudley said: "To my mind the remarkable result indicates that the the remarkable result indicates that the people have fully determined to remove the Democratic party from power for incompetency and misrule. It seems that the Republicans should receive this as a second and confirmatory expression of the confidence of the people in the ability of the Republican party leaders to wisely and sachle groups.

try.

"The Republican party must meet and discharge the great responsibility, as it can do, and as the history of the nation justifies us in believing it will do. And in order to meet the exigencies of the failing Treasury, Republican ideas of finance—the procurement of revenue from customs, rather than from self-axation and the self-distressing methods of internal revenue—be rigidly adods of internal revenue—be rigidly adto wisely and safely govern the coun ods of internal revenue—be rigidly ad-hered to, the vote by which they will be placed in full possession of the next administration of the Government will

administration of the Government will be so nearly unanimous as to be will-out precedent in the history of this country, save in the elections of Washington, Lincoln and Grant."

Senator Joseph R. Hawley, who is stopping here, said: "The election was a success which in its overwhelming magnitude bars all attempts to belittle the significance. It is a judgment that the Democratic party has made a gross failure in its attempt to govern the country. Having created a deficiency of revenues, it has not dared to accept Republican offers to support legislationproviding asensible and lawfulmethed of borrowing money to meet the emergency.

lation providing a sensible and hawfalmethed of borrowing money to meet the emergency. The country is tired.

"If the Republicans of the Fifty-fourth Congress shall be brave and wise and prudent in setting forth a sensible, manly, business-like policy in all matters of taxation, appropriation and exhibiting in all matters of international intercourse a hearty, generous and fearless Americanism, it seems to be absolutely certain that March 4, 1897, will introduce a handsome working majority of Republicans in both houses of Congress and a thorough going Republican executive."

Representative Chester I. Long, who fills Jerry Simpson's shoes, but, of course, not his socks, in the next Congress, said: "The glorious victory makes it almost certain

glorious victory makes it almost certain that the Republicans will secure both branches of Congress and the Presidency in 1896. It will restore confidence in-mediately, and capitalists will loosen the purse strings that have been so tightly tied, and invest in many and vast enter prises in all parts of the country."

The Moon and Stammering Nature publishes from a correspondent a curious fact, which it vouches for, and

a curious fact, which it vouches for, and which is, moreover, in accordance with other observations.

The correspondent says: "It was quite accidentally observed by a stammering friend of mine, during the menths of May and June last, that ou mountight nights he stammered more than on dark nights, and when he slept exposed to the rays of the moon during the month of June he found that he stammered the most on days succeeding full moons, while a day just after the new moon and a day hefore he had not a single attack of the fit."

Our scientific contemporary does not attempt any explanation.
